Passport Name: Juan Miguel Vasquez Aguilar Passport Number: [redacted]
Email: [redacted] Passport Issuing Country: Mexico

Dear Juan Miguel,

You are invited to participate in Neurosymbolic Programming Summer School hosted by the California Institute of Technology (Caltech). The summer school will take place July 11th, 2022 through July 13th, 2022, at the Caltech campus in Pasadena, California.

Caltech is a premier research university in the United States, and regularly hosts summer programs to broaden educational opportunities. The Neurosymbolic Programming Summer School offers particpants the opportunity to learn cutting edge methods in machine learning and program synthesis, as well as interact and discuss with instructors and other participants. The key topics covered in the summer school are neurosymbolic methods that blend deep learning with symbolic models.

The Neurosymbolic Programming Summer School is supported in part by an Expeditions in Computing Grant from the National Science Foundation.

All participants are ultimately responsible for expenses related to the summer school and are solely responsible for obtaining any required travel Visas to the host country. We authorize that this electronic version of the invitation letter can be used for visa purposes.

Sincerely,

Yisong Yue (he/him)
Professor of Computing and Mathematical Sciences
